SKILLS

- ReactJS
- JavaScript
- Python
- TypeScript
- NodeJS
- MongoDB
- Problem Solving
- MySQL
- Object-Oriented Programming
- Data Structures and Algorithms
- Figma Designing
- NextJS
- Web Design and Development
- Database Design and Development

EDUCATION

Bachelor's in Computer Science

Sukkur IBA University

Aug 2021 - Present

Strong academic foundation in computer science, covering subjects such as programming, algorithms, data structures, databases, and software engineering.

LANGUAGES

English

Urdu

Sindhi

PROFILE

I am seeking a challenging position as a web developer, leveraging my skills and knowledge in MERN stack development, while also expanding my expertise in cutting-edge technologies such as web 3.0, AI, and blockchain. Currently, I am actively learning and enhancing my proficiency in React.js and Node.js to build full-stack web applications using frameworks like Next.js. I am excited to contribute my passion for web development to create innovative and user-friendly solutions in the ever-evolving tech industry.

WORK EXPERIENCE

Web Design And Development Intern

Oasis Infobyte

May 2023 - June 2023

- During my internship at Oasis Infobyte as a Web Development and Designing intern, I had an enriching and hands-on experience in the world of web development and design.
- Throughout the internship, I was given several real-world projects, which allowed me to apply my theoretical knowledge and sharpen my practical skills.

Web Development Intern

The Spark Foundation

June 2023 - July 2023

- I was assigned diverse web dev and design tasks as a project intern. I created responsive UIs and implemented dynamic features using modern web tech.
- Assisted in developing a web application using React and Node.js.

PROJECTS

Promptly

Creator

- I designed and built a full-stack web application empowering users to craft and explore effective AI prompts. I successfully created an innovative platform for AI enthusiasts to collaboratively enhance their prompt generation skills.
- Leveraging React.js (Next.js) for the dynamic frontend, MongoDB for prompt storage, and Node.js for robust backend development

Tenzy Dice Game

Creator

- I created captivating web-based dice game, using React.js. Implemented interactive gameplay elements and engaging user interfaces to deliver an immersive and enjoyable gaming experience.
